

INTERNATIONALISATION
SERVICE OFFICER

About Project

ISO project aims to create a new professional profile, the Internationalization Service Officer – and prepare the CCI and VET professionals who are working directly with the SMEs operating in the business areas of trading and services.

The main goal will be achieved through the following activities:

- Developing partnerships aimed at promoting work-based learning in all its forms
- Developing partnerships supporting the setting up and implementation of internationalisation strategies for VET providers

TARGET GROUPS

The project is addressed to employees of Economic and Industrial Chambers, employees of VET providers and VET trainers who work with and support SMEs (trade and services) in the field of internationalization.

Project results

The following results will be created and implemented by the end of the project:

1. Internationalization Service Officer profession manual
2. Videocasts for SMEs concerning internationalization processes
3. ISO mobile application for startups

ISO partnership: Poland, Portugal, Greece, Italy, Ireland and Spain
