

INTERNATIONALIZATION
SERVICE OFFICER

The COVID-19 pandemic has changed life as we know it. As the rate of infections has started to slow down in some hard-hit areas, early signs of recovery are appearing. Some towns, cities and countries are starting to slowly reopen businesses, public areas and more. So, the ISO partnership was finally able to meet in person, in Naples, Italy, in July 2021.

From the 26th to 28th July, partners came together for a successful short-term staff training event. Its aims were to revise and finalise the ISO Manual, discuss the principles of using the ISO mobile application and decide on the implementation of the new ISO profession in partner countries, ensuring adequate follow-up by partners.

Due to COVID-19 constraints, the ISO project has received an extension of an additional 6 months. This means that the partners will be able to successfully complete all the expected outputs, increase the number of videos and organise the Multiplier events at local level and meet in person, in Barcelona, Spain and in Heraklion, Greece.
